Profile Summary

MERN Stack Developer with hands-on experience in designing, developing, and deploying scalable full-stack web applications. Skilled in building high-performance solutions using Next.js, React, Node.js, and Express.js. Experienced in developing RESTful APIs, integrating third-party services, and implementing secure authentication systems. Strong focus on writing clean, maintainable code and delivering user-centric digital products.

Technical Skills

Languages: JavaScript, TypeScript

Frontend: Next.js, React, Redux Toolkit, Tailwind CSS, Material-UI, Framer Motion, AOS, fullPage.js, GSAP

Backend: Node.js, Express.js, Repository Design Pattern

Database: MongoDB, PostgreSQL, MySQL

Integrations: Razorpay, PayU, WhatsApp API, LinkedIn API, Instagram API, Facebook API, AWS S3, Nodemailer, Multer, Socket.IO, Daily.co

Deployment / Platforms: AWS EC2, Vercel, Netlify, Render, Nginx

Developer Tools / IDEs: Visual Studio Code, Git, GitHub Actions, Postman, Figma, Cursor

Experience

MindOverMatter Technologies

April 2025 – Present

Full Stack Developer

- Designed and developed a scalable **air ticket booking platform** using Next.js, enabling real-time booking updates and secure payment processing.
- Built and optimized **admin dashboards** for managing bookings, users, and events, improving operational efficiency and decision-making.
- Integrated **WhatsApp API** to automate booking confirmations, cancellations, and notifications, enhancing user communication.
- Developed a full-stack **video editor application** with secure payment integration (Knit Pay) and email services via Hostinger.
- Engineered an **NGO platform** using NestJS and Node.js, supporting user assessments, doctor consultations, and real-time video calls using Daily.co.
- Integrated **Razorpay payment gateway** and deployed applications on Vercel and Render for scalable performance.
- Implemented cloud deployment and server optimization using **AWS EC2** and **Nginx**, improving application reliability and security.
- Enhanced **frontend experience** with animations and transitions using Framer Motion and GSAP, increasing user engagement.
- Built a **social media automation tool** to schedule and publish posts on LinkedIn, Instagram, and Facebook, reducing manual marketing effort.
- Collaborated with **cross-functional teams** to deliver scalable, high-quality, and user-focused solutions aligned with business goals.

Brototype

Aug 2023 – Dec 2024

Full Stack Developer (Intern)

- Developed **Eventopia.shop**, an end-to-end event management platform with vendor booking, real-time chat (Socket.IO), JWT authentication, PayU integration, and AWS S3 storage.
- Built **Bxy.shop**, an e-commerce platform with product management, analytics dashboards (Chart.js), Razorpay integration, coupon system, and PDF invoice generation..
- Designed a **User Management System** using React and Node.js with PostgreSQL, supporting secure CRUD operations and image uploads
- Developed an **OLX Clone** using Firebase authentication and cloud storage for posting and managing ads..
- Implemented real-time chat and notifications using **Socket.IO**, improving application interactivity.
- Built reusable React components and used **Redux Toolkit** for scalable state management.
- Collaborated in a team environment to deliver **responsive, user-focused** applications for multiple projects..

Education

MERN Stack Development, Brototype, Coimbatore

Sep 2023 – Dec 2024

Bachelor of Science in Geography, VV College of
Science and Technology, Kanjikode

Aug 2019 – May 2022
